

AMN Healthcare Language Services is Exclusively Focused on Medical Interpretation.

Our Language Services team is exclusively focused on medical interpretation. All of our interpreters are highly skilled and medically qualified. We offer complete medical language services that include over-the-phone, video remote, and onsite interpretation along with an easy-to-use translation service. Our language services

leverage every day technology like tablets, smartphones, and laptops to ensure easy integration into your existing processes. Our application is interoperable with various telehealth solutions, ensuring language access is available to patients when and where it is needed.

VIDEO

VIDEO

- Reach a medically qualified interpreter in 30 seconds or less in more than 40 languages over video 24x7x365
- Compatibility on any device, anywhere
- Complete ADA compliance
- Onsite video call centers for your interpreters

AUDIO

AUDIO

- Reach over-the-phone interpreters in more than 200 languages 24x7x365
