Throughput Status and Notifications

The throughput status displays a patient's status. Standard throughput statuses include the items in the table below. You can also create custom statuses.

	Purple	Prearrival
	Yellow	Unassigned: The patient needs to be seen by the physician.
	Blue	Assigned or Evaluation in Progress: The patient has already been seen or has orders placed.
	Green	Orders Complete: A check mark indicates that all orders are complete.
	Gray	Disposition Order: An order has been placed for Admit, Transfer, or Expired items.
	Dark Blue	Discharge Order Placed
	Magenta	Triage Documentation Not Complete
	Light Blue	Triage Documentation Complete

Vital Signs

	Vital signs are available and critical.		Vital signs are available and not critical.
	Vital signs are critical and need to be reassessed by nursing.		Vital signs are not critical and need to be reassessed by nursing.

Patient Information

The Patient Information column displays the patient's name, triage information, medical history, and any other critical information.

-  **Alert Problem:** A problem is flagged.
-  **Critical Notes:** A note specified by your organization is available. For example, excessive CTs.
-  **Allergies:** Confirmed allergy information exists on the patient's medical record.
-  **No Known Allergies:** No known allergies exist.
-  **No Known Medication Allergies:** No known medication allergies exist.
-  **Allergies Not Checked:** No allergy documentation has taken place.
-  **Prearrival:** Click to view the prearrival note.
-  **Isolation:** Isolation precautions have been ordered for this patient.
-  **24-Hour Return:** The patient had a previous visit in the last 24 hours.
-  **48-Hour Return:** The patient had a previous visit in the last 48 hours.
-  **72-Hour Return:** The patient had a previous visit in the last 72 hours.
-  **DNR No Code**
-  **DNR Chemical Code**
-  **DNR Full Code**
-  **30-Day Readmit:** The patient was recently readmitted.
-  **Fall Risk:** This patient is a fall risk.

-  **Workman's Comp:** This patient may qualify for Workman's Compensation.
-  **Custom Event Icons:** The first letter of the custom tracking event is displayed.
-  **Behavioral Risk:** A behavioral risk is documented for the patient.
-  **NPO:** Food and fluids are withheld for the patient.
-  **Full Resuscitation**
-  **No CPR, Defibrillation, or Intubation**
-  **Do Not Resuscitate**
-  **Multiple Resuscitation Statuses**

IV Stop Times

-  **IV Stop Times:** This icon is displayed as a reminder to complete IV stop time documentation. Click the icon to complete the documentation.

Activity Indicators

Position the pointer over an indicator to view activity details. Click the icon to document.

The total number of outstanding activities is displayed on the right. The blue bar indicates that orders are ready for nurse review.

-  **2** This icon indicates an ordered medication.
-  **4** This icon indicates a laboratory order if the specimen is defined as micro or AP.
-  **1** This icon indicates a laboratory order if the specimen requires blood to be collected.
