

MEDITECH Expanse TIP SHEET

Consult to Child Life Specialist

Within Expanse, the “**Consult to Child Life Specialist**” order is currently designed as a provider-type consult and requires that a Provider (LIP, APRN, etc.) be assigned to submit the order. After surveying our divisions, it was brought to our attention that this type of consultation is not performed by such providers and is performed by clinical departments instead.

As a result, the “Consulting Provider” and any other provider consultation/notification fields will be removed from this order screen.
