

# MEDITECH Expanse TIP SHEET

## Pediatric Asthma Action Plan Updates

### Green Zone: Well

No Signs of Asthma

- Able to do normal activities
- No problems while sleeping

### Yellow Zone: Watch Out

Early Signs of Asthma

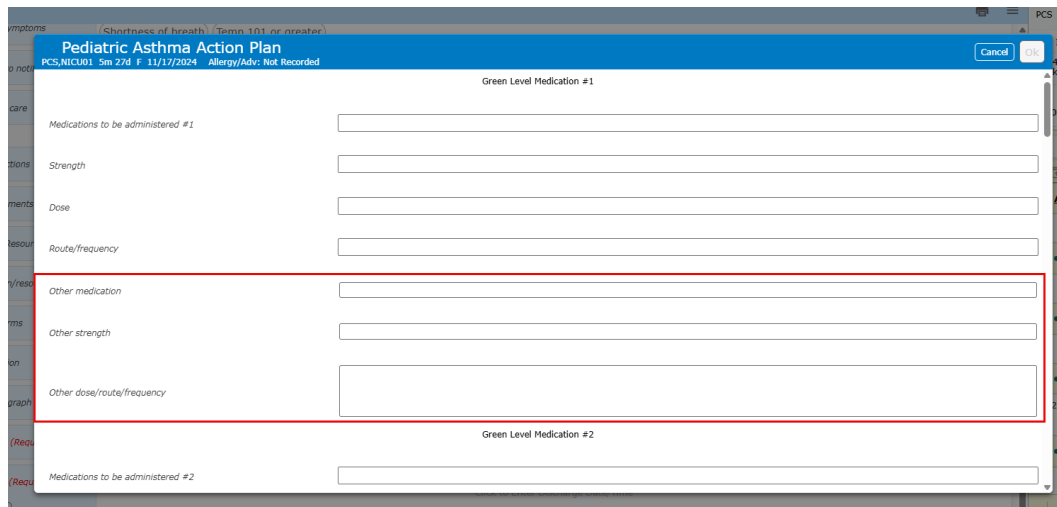

- Cold symptoms
- Coughing day or night
- Wheezing day or night
- Funny feeling in chest

### Red Zone: Emergency!

Late Signs of Asthma

- Tight chest
- Breathing hard or fast
- Using neck or stomach muscles to breathe
- Constant coughing
- Trouble talking or walking
- Vomiting
- Lips or nails blue

Descriptions for Green level – Child is well, Yellow level – Child is NOT well, and red Level – child feels awful have been updated to better describe what the child would look like/feel like in those zones.
