

# Cerner

The screenshot shows the Cerner IView and I&O interface. On the left, the 'Assessment Med Surg' menu is expanded, and 'Integumentary' is highlighted with an orange arrow. The main window displays a table of assessment results for the period June 25, 2024 09:34 EDT to June 27, 2024 09:34 EDT. The table has columns for 'Result', 'Comments', 'Flag', and 'Date'. The 'Integumentary' assessment is listed with a date of 06/26/2024 09:34 EDT. Below the table, a tree view shows the 'Integumentary' assessment expanded to show sub-items like 'Integumentary WDL', 'Skin Color', 'Skin Characteristics', 'Skin Turgor', 'Nail Appearance', 'Skin Abnormality', 'Medication Patches', 'Patch Type', and 'Patch Present'.

Assessment –  
Integumentary

The screenshot shows the Cerner IView and I&O interface. On the left, the 'Assessment Med Surg' menu is expanded, and 'Braden Skin Assessment' is highlighted with an orange arrow. The main window displays a table of assessment results for the period June 25, 2024 09:34 EDT to June 27, 2024 09:34 EDT. The table has columns for 'Result', 'Comments', 'Flag', and 'Date'. The 'Braden Skin Assessment' is listed with a date of 06/26/2024 09:35 EDT. Below the table, a tree view shows the 'Braden Skin Assessment' expanded to show sub-items like 'Braden Scale Age', 'Mobility', 'Sensory Perception', 'Moisture', 'Out of Bed Activity', 'Friction and Shear', 'Nutrition', 'Pressure Injury Risk Score', and 'Braden Risk Level'.
