

Meditech Reminders

Telemetry 8-13-2024

The intervention **Tele App/Discon *ORDER DRIVEN*** name will be changed to **Tele App/Discon *ORDER REQUIRED***

The intervention workflow for telemetry will be updated to the following:

- **Tele App/Discon *ORDER REQUIRED*** will no longer populate from the initial telemetry order.
- **Tele App/Discon *ORDER REQUIRED*** will populate to the intervention list from the quick start.

Documentation process does not change.

The start date/time for telemetry will be documented using the **Tele App/Discon *ORDER REQUIRED*** intervention.

- Telemetry must be applied and documented within 30 minutes of the order being entered.

The discontinue date/time for telemetry will be documented using the **Tele App/Discon *ORDER REQUIRED*** intervention.

Case Management

- Case Management Status Board:** The ADOD (Anticipated Date of Discharge) indicator flows from the insurance section of the patients registration in Meditech. The ADOD is not based upon clinical staff involvement. Division Case Management leadership has approved removing the ADOD indicator from the Case Management Status board.
